dramatic changes. With these changes, come challenges.

1100%

Globalization has led to an increase in wealth for some.

But in many parts of the world, income inequality has
dramatically worsened.

PLANE CHALLENGES

We have seen a recent increase in geopolitical events, led by human influences, called the Anthropocene.

By nearly everyone’s measure, various impactful environmental issues are the least they’d come to be than in our entire existence before that.

TECHNOLOGY CHALLENGES

The pace of technological change continues to accelerate.

It is fundamentally changing the way we live, work, and relate to one another.
